

## Reading Buddies at Surrey Libraries

### What is the Reading Buddies program?

This program is a chance for children grades 2-4 to practice and improve their reading skills in a non-threatening environment. The children will be paired up with a high school student volunteer to enjoy reading and playing literacy games together. This program does NOT teach children how to read.

### Format

This after school program runs for 1 hour every week for 6 weeks. Parents must bring their children to the library and wait for them until the program ends. **Children must attend all sessions** unless they are ill. If they cannot come to a session, please phone or email before the program starts.

### Audience

All children from grades 2-4 are welcome in this program. Children who speak a language other than English at home may benefit most from this program. Space is limited for this program and parents must fill out the following form. Parents will be contacted by Library staff if they are selected.

### Volunteers

Each volunteer has received training to orient them to the resources available at the library, to learn about working with children and helping them to read, and to understand their responsibilities in keeping the children safe.
